The architectural drawings illustrate the 'Housing for the Future' project. The top left drawing is a floor plan of a residential unit, showing a layout with multiple rooms, a central hall, and a kitchen area with circular fixtures. The top right drawing is a cross-section of the building, revealing a steeply pitched roof structure with internal trusses and a multi-level interior space. The bottom drawing is a detailed elevation of the building facade, showing a modern design with a grid of windows and balconies, a large tree on the left, and a car parked on the street in front.
